THE INDICATIONS ARE THAT THE  
WEATHER WILL BE FAIR TO-  
NIGHT AND TOMORROW. SLOW-  
LY RISING TEMPERATURE.

## LEADER OF THE REVOLT

### Admiral Reis Lost Heart and Ended His Own Life

Lisbon, Oct. 8.—Admiral Candido Reis, who committed suicide on his flagship shortly after the uprising began, in the belief that the revolution had been unsuccessful, has taken a place in the minds of the populace alongside the other so-called martyrs of the revolution. Dr. Bombarda, whose assassination was the occasion for an outbreak which led up directly to the events of the last few days.

Admiral Reis took the initiative in precipitating the revolutionary movement among the vessels of the fleet which lay anchored off Lisbon. He had agreed with the other Republican naval leaders that a salute of thirty-one guns should be the signal on each boat, apprising the others that the uprising was successful. In the confusion which attended the outbreak on the cruisers, only three guns were fired. Admiral Reis, hearing those three guns, jumped to the conclusion that the whole movement had failed. In despair, he drew his revolver and fired a shot into his head, dying at once.

### Monarchists Give Way.

Lisbon, Oct. 8.—Quiet continues to reign in this city, and thus far there has been no sign of any reaction in favor of the old regime. The monarchist party is generally regarded as dead, particularly since the Radicals, under the leadership of Dr. Jose Maria Aboim, have thrown in their lot heartily with the Republicans. Of all the monarchist leaders, only three, including General Pimentel Porto and two Franciscos, Vasconcellos Porto and Ayres Ornelas, are said to have taken any active share in attempting to suppress the revolutionary movement.

The complete disappearance of the monarchist party is reflected in the discontinuance of the seven newspapers which represent the entire monarchist press.

It is not yet indicated what action the new government will take against the leaders of the opposition. However, General Pinto, who is a former minister of war, has been arrested, and several officials, including Vasconcellos Porto, have been directed to report themselves at once at headquarters.

The date for the reassembling of the national assembly has not yet been fixed.

### King's Property Safe.

Bordeaux, Oct. 8.—Advices from Lisbon say that the new Republican government has declared its intention not to seize the private property of King Manuel. There has been much speculation over this matter. The Republican leaders said several weeks ago, in outlining their so-called program, that if the revolt was a success they would favor the seizure of the king's property and the payment of an annual pension to the king.

The royal fortune is very large, both in personal property and in houses and lands. The king, however, pays taxes upon all his property, like any other Portuguese citizen.

## SOLDIERS HAVE THE LATEST GUN

WASHINGTON, Oct. 8.—The United States Marine Guard at Pekin, the entire marine force in the Philippine islands and every marine in both the Pacific and Atlantic fleets have been equipped with the latest model arm, the newest model of the Springfield army rifle.

This makes 4,000 or more marines already armed with this weapon while all the rest of the marine corps—which musters a strength of a little less than 10,000—are equipped with the old Krag-Jorgensen. These still unequipped are the marines ashore on the Atlantic and Pacific coasts. In this city and in Hawaii. The new rifle is a fast multiple fire.

The idea is to equip the entire corps with the same type of weapon as the army uses so as to have uniformity in both services. The funds for the supply have run out and to complete the equipment an appropriation of congress will be necessary.

### DEMOCRATS OF MICHIGAN NAME THEIR TICKET

KALAMAZOO, Mich., Oct. 8.—Democrats in their state convention today fought over platform planks and other details. The session was continued until 8 p. m. after a late start had been made.

The resolutions committee finally introduced an incomplete platform over which they had struggled for hours. A contest over the insertion of an initiative and referendum plank almost culminated in a fist fight on the floor. Action on the plank

finally was deferred until the next convention and the delegates scrambled for trains.

The platform as adopted denounces the Payne tariff bill and arraigns the Republican congressmen of Michigan for their acceptance of it. It demands bipartisan state boards and commissions as a protection against scandals such as were recently exposed in the state. The placing of all state employees under civil service was recommended and the candidacy of Lawton T. Hemana for governor and John T. Winship for United States senator were lauded.

Although delegations from several counties failed to answer roll calls, the gathering was said to be the largest Democratic convention that has been held in recent years.

The candidates nominated were: Justice of supreme court—Mark Morris.

Attorney general—T. J. Bresnahan. Secretary of state—Adolph Peterson.

Treasurer—R. V. McArthur. Land commissioner—R. F. Barnes. Auditor-General—Thomas Gordon.

## FOREST FIRE FATALITIES

### Two Minnesota Towns Have Been Wiped Out by the Flames

Winnipeg, Man., Oct. 8.—The towns of Beaudette and Spooner, Minn., have been wiped out by fire. Many lives have been reported lost, and millions of dollars worth of property destroyed by forest fire which came from the northwest.

Refugees coming into Rainy River, Ont., say that corpses are lying along the railway track and between the rails.

Many Beaudette residents escaped across the river to the Canadian side.

## NEGRO ROBBER IS CAUGHT IN OGDEN

John Holcombe, a negro of Salt Lake City, was arrested by Detective Chambers of the Ogden police force and Detective Mitchell, a negro officer of the Salt Lake force, at midnight last night as a suspect in the robbery of \$150 from an ice dealer committed Thursday at the Fair Grounds in Salt Lake City.

The robbery, according to the ice man, was committed at 4 o'clock during Thursday afternoon, occurring in a jam in the crowd of visitors at the State Fair. Holcombe said when arrested that he left Salt Lake Thursday evening at 6 p. m., for this city, but denied having anything to do with the robbery.

The negro detective arrived last evening and sought the assistance of the local department in searching for his man. Detective Chambers accompanied him on the hunt, and, shortly before midnight, the suspected man was located in the Banquet rooming house.

Holcombe never once lost his poise, and acted as though an arrest and incarceration was an every day occurrence with him. The man was well dressed and carried a roll of \$21. At the station he asked that an officer be sent back to his room, to collect his valuables and lock them in his trunk, so that he might not lose them during his sojourn behind the bars.

Unlike most negroes, this chap was amply provided with clothes, having four changes of apparel from his head to his toes in his room, at the Banquet.

Detective Mitchell loaded his man in the patrol wagon, and hastened to the depot in the hope of returning him to Salt Lake on the first special, but missed it by a few minutes.

## DEAD STOCK ON ISTHMIAN CANAL

Washington, Oct. 8.—An accumulation of surplus and unserviceable equipment is reported by the Isthmian canal commission as on hand in the canal zone. Owing to the increase of dead stock on the Isthmus, estimated as amounting to between \$200,000 and \$300,000, it has been determined to build a storehouse for condemned property.

The canal commission finds difficulty in disposing of heavy machinery which would be purchasers have no opportunity to see. The new plan is to allow the stock to accumulate on the Isthmus until there is sufficient quantity to warrant prospective buyers visiting the Isthmus to see it.

It is believed that a great deal of this material could be sold to buyers in Central and South America as well as in the United States.

## HIS MEMORY IS RESTORED

### Tumor on the Brain Had Made a Man a Mental Wreck

Denver, Oct. 8.—Four years ago, Jeremiah Warwick placed his motherless boys in an institution in this city. At a time he visited his sons, aged then eight, seven and five years, respectively, and then his visits ceased. Failure to receive any provision and inability to find trace of relatives, finally led the authorities of the institution to make other arrangements for the boys, and they finally ended in the state home for dependent children.

Ten days ago, Jeremiah Warwick, a mental wreck whose memory was entirely gone, was operated on at a hospital here and a tumor removed from his brain.

Memory and power of speech, which he had also lost, came back to him gradually, and yesterday he inquired for his boys, regarding whom his mind had been a blank for over three years.

## MONASTERY IS FIRED ON

### Jesuits in a Battle With Republican Troops

Lisbon, Oct. 8.—The hoisting of the British flag over the Jesuit monastery in the Rua de Quel have the occupants from an attack by the Republican troops last night. One priest was killed and others arrested. The attack began during the night, after Republican troops had been fired on from the windows of the monastery. It is believed the attack on the soldiers proceeded under the direction of the municipal guards.

The fighting was severe for a time, but when the Jesuits saw they were getting the worst of it, and when in peril of their lives, they ran up the colors of Great Britain. The flag was respected by the troops, who at once suspended operations.

## RESTING PLACES OF CONFEDERATES

WASHINGTON, Oct. 8.—Marking the last resting place of 6,500 officers and men of the Confederate army and navy who died as prisoners of war at Camp Douglas, between 1862 and 1865, a \$25,000 monument on a mound in Oakwoods cemetery, Chicago is to be improved greatly.

Under a special act of congress, a contract has been awarded for raising the base about five feet three inches and for placing sixteen bronze tablets around the new sub-base or mound. These tablets will bear the names, rank, company and regiment of the 4,500 men together with an appropriate inscription. The work will cost \$22,230. The new base will be faced with granite.

The monument was erected fifteen years ago by the ex-Confederate association of Chicago.

## WORKMAN DECAPITATED BY A FLY WHEEL

Aspen, Colo., Oct. 8.—Placing his head between the spokes of a large fly wheel in the compressor room of the Smuggler mine in order to make repairs, Richard Pierce, foreman of the compressor room, was decapitated yesterday when the machinery was accidentally started up.

### Chicago Produce.

Chicago, Oct. 8.—Butter steady; creameries, 24½¢; dairies, 23½¢. Eggs—Steady; receipts, 44½¢ cases; at market cases included 18½¢; 21½¢; firsts, 23¢; prime firsts, 25¢. Cheese—Steady; twins, 14½¢; 15¢; young Americans, 16½¢; long horns, 16½¢.

### WEALTHY MERCHANTS IN SMUGGLING BUSINESS

Bisbee, Ariz., Oct. 8.—Mexican officers at Cananea made wholesale arrests of merchants at the place yesterday charging them with being the

"higher ups" in a gigantic smuggling scheme.

The arrests are a result of the capture of N. D. Navarette, an American residing in Naco, who was kidnapped from his home last Saturday night and hustled across the border. His detention is now being investigated by the state department.

The Cananea merchants, according to the Mexican officials, employed Navarette and a crew of twelve men to smuggle merchandise from the United States into Mexico. The defendants are among the town's most wealthy and prominent residents.

### MAN ACCUSED OF DROWING HIS WIFE IS FREED

PORTAGE, Wis., Oct. 8.—The trial of Dr. William Hecker of Waseka, Ill., charged with being responsible for the drowning of his wife at Fox Lake about six weeks ago, was concluded yesterday by the dismissal of the case by Justice O'Connell on the ground of insufficient evidence to sustain the accusation. No testimony was offered by the defense.

## INDIANS ARE ENLIGHTENED

### Now Want Cooking Ranges, Flour and Chewing Gum

Seattle Wash., Oct. 8.—Katak, a Point Barrow Eskimo, sent to Seattle by a ship that arrived yesterday, found to be sold for \$1,000 and the money used to purchase goods. He wishes rifles, flour, tea, a cooking range and a score of articles that he has never seen, but whose pictures in the advertising sections of the magazines and newspapers have attracted him.

The missionaries have stopped the traffic in whiskey between the whalers and the Arctic Eskimos, who are not in improved health and becoming so wise that traders can no longer exchange worthless trifles for furs and ivory.

"What appeals to the natives," said Captain Backlund, "is that while a gumdrop is consumed in a few minutes, the stick of chewing gum lasts almost indefinitely and can be used turn and turn about by the whole family."

The gold output on Kozelue sound this year was below the average, owing to floods interfering with slicing.

## THOUSANDS AT WORK ON CANAL.

WASHINGTON, Oct. 8.—The Isthmian canal commission reports that, on August 13, there were 35,867 employees actually at work on the canal and the Panama railroad and of this number 29,950 were canal employees. No labor recruiting during the month was necessary. The number of Americans engaged in the enterprise shows an increase of twenty-five over the number of July and the total force employed is divided as follows:

Railroad, 3,295; railroad re-location force, 1,603; railroad commissary force, 29,950.

## WHEN NEW YORK HAD ONLY 24,000

Los Angeles, Cal., Oct. 8.—James Bowles of this city has unearthed a number of curious old books from a lot which he has had stored away for a number of years, among which is a copy of the first New York directory, issued in 1786. It contains the names of all the residents of New York City at that time, numbering 24,000.

A review of the events of the preceding year also is contained in the book. A small advertisement tells of the "excellent rum" sold on No. 26 Broadway, now the home of the Standard Oil company. Only forty-two lawyers were in New York at that time and side by side are the names of Aaron Burr and Alexander Hamilton.

## INTOXICANTS SOLD TO MINORS

George Bello, a Greek saloon keeper, and E. Nina, a Japanese saloon keeper, were arraigned in police court this morning and charged with selling intoxicants to minors. The arrest of the two men is the result of charges made by John Freeseburg and Nephi Cowlishaw, wards of the juvenile court when questioned by juvenile judge V. C. Gunnell.

Each saloon keeper entered a plea of not guilty and the cases were set for next Tuesday morning. The men were placed under a bond of \$200 each.

W. J. McCarthy pleaded guilty to the charge of disturbing the peace and was fined \$5 or five days.

Pearl Price, charged with vagrancy, pleaded not guilty and her case was continued. Her bond was fixed at \$10. The Price woman is an octogenarian and was arrested at the Fair grounds yesterday afternoon.

P. Jovan forfeited a bond of \$10 by not appearing for trial. He was charged with vagrancy.

## MORE AUTO ACCIDENTS

### Cars Turn Turtle and Run Into a Bridge During a Race

Philadelphia, Oct. 8.—A raw north-west wind chilled the thousands of spectators who gathered along the eight-mile course in Fairmount Park today to witness the big 200-mile automobile road race of the Quaker City Motor club, scheduled to start at noon.

Mitchell's Chadwick No. 25 ran into an embankment on the fifth lap, and turned a somersault. Scott Mallott, the mechanic, was taken to a hospital badly injured and Mitchell also was hurt.

Car No. 2, a Simplex, driven by Ralph Beardsley, ran into a railroad bridge in Sweet Briar drive, and the driver and mechanic were thrown out. The mechanic, Ethridge, was badly hurt. The car was wrecked.

New York's Teams ARE SECOND IN RACE

New York, Oct. 8.—The contests for second place in the two major leagues, which have captured the attention of baseball enthusiasts since it became a certainty that Philadel-

phia and Chicago could not be ousted from the lead, is now a thing of the past, and New York has the distinction of furnishing the runner-up to the champions of each organization. In each case the battle was waged almost to the closing day before the outcome was settled.

The New York Nationals clinched second place and passed out of the danger zone Thursday, when they defeated Brooklyn. Although they still have four games to play, the worst record they can make is 90 victories and 63 defeats, two full games better than Pittsburgh.

The New York Americans were one day behind the Giants in clinching their title to second place. Yesterday morning Detroit still had a chance to nose them out, but with Detroit's defeat yesterday, each team has two games left to play. The best record now possible for Detroit is 87 victories and 67 defeats, while the worst finish the New Yorks can make is 86 victories and 65 defeats. This would give the metropolitan representatives a slight advantage over their rivals.

## ON MOUNT M'KINLEY

### Columbia University Pro- fessor Was Unable to Reach the Summit

New York, Oct. 8.—Professor Herschel C. Parker of Columbia university, who returned on Thursday from his unsuccessful attempt to climb Mount McKinley has just submitted to the explorers club here his report of the trip. He declares that he undoubtedly reached a point closer to the summit than any previous explorer. He scouts the claims of the so-called Lloyd party, which professed to have climbed the peak in April, as well as those of Dr. Cook.

The Columbia professor claims two world's records as the result of his adventures. One of them is the feat of staying fifty days on the Chulitna glacier, supported only by the provisions which he had and his party could carry on their backs.

The second record is that of having climbed to the highest point of the now famous mountain. His instruments registered a height of 10,300 feet. Even at that height, Professor Parker said, he was seven miles from the unconquered summit.

In his expedition, Dr. Cook said that he reached 10,400 feet, and Professor Parker explains to the explorers club that after Dr. Cook's return a careful examination of his instruments showed that they registered 1,000 feet out of the way.

The party made four attempts to scale the mountain from the southern side. Each time they were driven back.

## MRS. WEST MADE A GOOD SHOWING

Mrs. Evelyn E. West has been kept quite busy since the convention, by phone and personal calls of her many friends, congratulating her on the fine showing she made as a candidate for county recorder, and while her friends regret the fact that she did not get the nomination, they are proud of the race she made.

Standing alone, with no faction or combination to work with, she ought to feel grateful at the result. A number of successful candidates for different offices lost out in their first attempt, receiving less votes than she and there is no reason why she should not try again, say her many friends.

Mrs. West takes this opportunity of thanking all those who were so loyal to her.

Mrs. West has only one regret in connection with the campaign and that is the circulation by a number of politicians of the report that she was incompetent. Mrs. West was a student at the University of Deseret, before it became the University of Utah, and later she was a teacher in the graded schools of Salt Lake City, all of which proves her fitness to be county recorder or to serve in any other public office in this county. She is a talented lady and her ability should be recognized by her party.

Chicago Close.

Chicago, Oct. 8.—Wheat, Dec. 98½; May, 104½; July, 99.38¢.

## BLACK HAND IS DOOMED

### Leaders of Murderous Band Are Now Known to the Police

New York, Oct. 8.—The arrest of several noted Italian criminals, who are believed to have been associated in a "Black Hand" band which has operated extensively in various parts of the United States, is expected by the New York police as the result of evidence turned over to them in a letter sent from Italy and just received here.

The writer says that now he is safe in Italy, he wishes to denounce an organization which, under the disguise of a mutual benefit society for Italians in America, compels his countrymen to become members under threat, swears them to secrecy, and then forces them to take part in criminal expeditions planned by the leaders.

The letter mentions the two leaders, one of whom lives in this city and the other in New York. He says that they are responsible for many of the crimes attributed to the "Black Hand." The names of the men are withheld by the police, pending an investigation.

The writer states that he was present when one of the leaders, assisted by his "executive committee," murdered an American citizen in cold blood, robbing him of \$2,000.

## WORLD'S MARKETS MARKET RECOVERS FROM DULLNESS

NEW YORK, Oct. 8.—Speculation in stocks broadened out this week and market pools set to work in various specialties. The principal factor was a relaxation of the money market after the October settlement. Bankers continued cautious, however, in view of the further requirement of the crop movement and the uncertainty of the foreign exchange situation. Restriction of the stock speculation came from that source.

The improved bond market results from heavy curtailment of new issues which have opportunity for floating. The fine promise of the corn crop was offset partly by the cotton crop prospect. Betterment was reported in the copper trade, but the iron and steel trade remains quiet.

### MARKET IS EXTREMELY DULL DURING SESSION

New York, Oct. 8.—Prices of stocks today were barely stirred by the light opening orders. A sluggish up and down movement within a range of less than half a point was the extreme.

The tense dullness at the opening afforded little opportunity for trading and fluctuations restricted movements to the narrowest fraction in the second hour. The market closed steady. A slight hardening of the general list accompanied the advance in some of the specialties. The narrow range of the advance was reduced in the last few minutes.

### Bank Statement.

The following is the New York Clearing House summary of the weekly statement of banks for the week ending October 8, 1910.
